

## Anti-Aging

### DHEA / 7-Keto DHEA

Dehydroepiandrosterone  
"The Fountain of Youth",  
**the body's own "Feeling-Good" Hormone.**

DHEA is naturally produced in the body, mainly by the adrenal glands. The body's natural production drops off in the mid 20's, and continues to decline with age.

**Pregnenolone** is important for nerve and brain health, is a potent memory and learning skill enhancer, relieves arthritis, has anti-depressant effects, relieves stress, improves mood and sense of well being, stimulates clear thinking, influences the (physic) energy levels, and plays an instrumental role in overall Quality of Life

## Sleep well and wake up refreshed

### Melatonin - BioTonin®

Melatonin does not only regulate sleep/wake patterns, in fact it regulates our **whole aging process** and gives us good health and Quality of Life.
