

# Healthyliver™

**It Helps the Physiological Antioxidant and Purifying Functions and the Well-being of the Liver**

## The Liver – a Key Player

The liver is a large glandular organ, about the size of a football and sits under your lower ribcage on the right side. The liver is a key player in your body's digestive system. It helps clean your blood by getting rid of harmful chemicals that your body makes. It makes a liquid called bile which helps you break down fat from food. It processes many vitamins and nutrients into a form that can be utilized by the body as well as detoxification of various substances. It stores sugar called glucose, which gives you a quick energy boost when you need it.

Modern living has become more and more stressful and involves daily exposure to substances that are toxic to our bodies, which imposes a heavy load on the liver. Certain lifestyles and medical conditions make it even more important to keep your liver's functions at its best.

## Risk Factors

Some of the risk factors are:

- Heavy alcohol use
- Drugs /medicine
- Exposure to certain chemicals and toxins
- An unhealthy diet
- Diabetes
- Obesity
- High levels of triglycerides in your blood

**Available in:**  
Box of 90 tablets

## Take Care of your Liver

Some ways to keep your liver healthy is to not drink alcohol, eat a healthy diet, exercise regularly, watch out for certain medicines and to supplement with Healthyliver™.

## Key Ingredients

**Marian Thistle (*Silybum marianum*)** contains bioflavonoid compounds (marian thistle and silybin) that carry out an important task in maintaining the liver healthy. These substances have a protective function against the toxins filtered by the liver – for example, but not exclusively, alcohol. And a regenerative function on liver cells.

**Wild Strawberry (*Fragaria vesca*)** possesses the capability of detoxing the internal organ operating through stimulating the liver. This action is mainly carried out by the tannins and by the flavonoids present in the leaves. The vine and wild strawberry leaves are considered remedies for liver disturbance also in Anthroposophical medicine.

**Dandelion (*Taraxacum officinale*)** The roots of the dandelion are rich in one substance, taraxasterol, which effects are beneficial to the liver. Recent studies have shown that taraxasterol improves the production of gall (bile) and its passage from the gall bladder to the duodenum, facilitating efficient liver function and improved digestion. Furthermore some of the substances would act on the membranes of the liver cells, improving their function and normalizing the metabolism of fats and transaminases.

**Vine (*Vitis vinifera*)** is a plant rich in various substances that are beneficial to our organism contained in its various parts. In particular the bioflavonoids present in the leaves have a strong decongestive power on the liver and have the power to fight the viruses hepatitis A and B.

## What is Healthyliver™?

Healthyliver™ is made of natural plants selected ad hoc in order to sustain and reactivate the liver. The liver is a very delicate organ and is gravely stressed by the non-stopping rhythm's of today's life. Food, alcohol, drugs, and all what we consume leave toxins that the liver has to filter, which leads to destabilisation of the liver function.

The vegetable extracts in Healthyliver assist the liver in its main task of processing the substances that pass through it, and protect from attacks of toxic agents that are present in these substances.

## Healthyliver™ is Safe to Use

Healthyliver™ is a natural product and NO side effects or risks have been reported in association with taking supplemental Healthyliver™, nor its individual ingredients separately, in recommended doses. Healthyliver™ and its individual ingredients seem to be compatible with (and causes no negative drugreactions whatsoever) all and any prescription drug, other dietary supplements, natural products and foods, when taken in recommended dosages

## Benefits

Healthyliver™, made from vegetable extracts, assist the liver in its main task of processing the substances that pass through it, and to protect from attacks of toxic agents that are present in these substances.

## Recommended Intake

### Preventive intake:

1 tablet a day preferably far from meals.

### Therapeutic intake:

1-2 tablets twice a day preferably far from meals.

Or as recommended by a healthcare practitioner.

## About EuroHealth®

**EuroHealth®** is a leading supplier of revolutionary and unique natural products for achieving optimal health, longevity as well as inner and outer beauty. Carrying the traditions of its American, Asian and European affiliations, having developed, produced and marketed innovative, state-of-the-art, effective and natural alternative products since the mid 1980's, **EuroHealth®** has taken these innovations to global markets and recently into "**Cyberhealth**". Hundreds of thousands of satisfied users can bear witness to the quality and the efficacy of its products.

## Suggested Use:

Take 1-2 tablets twice a day preferably far from meals.

## Ingredients

Marian Thistle (Silybum Marianum), Wild Strawberry (Fragaria Vesca), Dandelion (Taraxacum officinale), Grape Vine (Vitis vinifera), Dicalcium Phosphate, Microcrystalline cellulose, Stearic Acid, Magnesium Stearate, Silicon Dioxide.

Available in tamper proof blister packs, 30 tablets to a blister:  
3 blisters/box (90 tablets)  
430 mg – 90 tablets
